October 2016 Newsletter 2016 – Johnstown RC Clubs 54th Year Join us online at: www.Johnstownrc.org

Upcoming Events.....

Sunday, Sept. 25th: Family Picnic, this might just be our last one for 2016, don't miss this one! Jet demonstration is the special interest event! Should be fun, bring your family, a dish to pass, and expect to have fun!

Tuesday, Oct. 4th: Regular Club meeting at the Richland Township Municipal Building....note time change back to 7:30 pm. Flying at the field prior to the meeting, weather permitting.

Note Meeting Time Change!

Saturday, Oct. 22nd. Fall work day! 10 am We will take the canopy down and do some fall cleanup work! Hope to see you at the field!

Tuesday, Nov. 8th. Regular Club meeting, 7:30 pm Nomination of officers for 2017.

2016 Toledo Trek.....

Ed Develin with his Goldberg Sail Plane

Five of our club members made the trek out to Toledo Ohio to participate in the Toledo RC Club's Weak Signals Old Timer's Event. Those making the journey included Ken Reese, Ed Develin, Paul Yuhas, Mark Turzak, and Scott Holsopple. Above is Ed Develin with his Goldberg Sail Plane and he took a 1st place in the 1/2-A Texaco division. The guys reported that the attendance was down some from previous years, since many of the attendee's are getting older and commented that this just might be the last year for this particular event. It seems the fellow who organizes the whole thing is

turning 90 years old, and has indicated that he may not take on that role any longer. So the guys will have to wait and see what happens out in Toledo next summer.

Above, Scott is assisting Ed to fuel up his Taibu Powerhouse, where he took a second place in the C-Glow event.

Above, Mark and Paul with Paul's Dallaire Electric Speed 400 plane.

Mark Turzak shows off his Lanzo Airborn which took a 2nd place in the Electric Speed 400 event.

Scott and Ed work on preparing Ken's Lanzo Bomber, which took a 2nd place in C-Glow. The guys all had a great time even though it was very hot. It's a big trip, given that a first place only earns \$15 and this year they even did away with the money prize! The annual trip has been a club tradition for many years though, and the Toledo members count on the guys from Johnstown, who come to fly! This year only 5 members went, with the sixth member, Jim Patterson staying behind this year. The Toledo club's flying field is about 10 miles north of Toledo, and is located along Rauch Road up in Michigan.

Mark Turzak was put in charge of the batteries and radios this year, the first time they had entry's in the newer electric events. Thanks to Paul Yuhas for providing the pictures and comments about the trip. He reported that they did run into rain on the way home after some very hot and sunny days out there. For some reason, no pictures of Ken Reese showed up, not sure why, Oh wait, there he is sitting in the chair in the picture with Scott and Ed with the red plane on the previous page! Ken said it was "to damn hot"

Flying Field.....

Our flying field has remained in wonderful shape all summer long thanks the the great work by Don Hoffman. So far we have not had any visible damage by the skunks, and everybody is wondering if the corn planting was the cause. We had problems when the corn was planted, but much less last year and none so far this year!

Sept. Club Meeting Recap

Thirteen club members were in attendance on September 6th for our regular club meeting. Several flew at the field prior. Our finances are in pretty good shape going into the winter building season. The fall work day was discussed but no specific date was set. (Later, Sam, Ken, and Roger picked Saturday, October 22 for the work day)

During Show n Tell, Bruce Thomas demonstrated a neat way to make your own decals by just using packing tape, and your computer printer. It turns out it must be a lazer printer to work well. There is lots of flying days left, see you at the field!
